NOTE: This is a water level independent nozzle.

SPECIFICATION DATA: RAN Series Foam/Aerator nozzles; water level independent, extensively wind-resistant (Optional alignment swivel available; consult factory). Note: Nozzle requires American thread adapter included with purchase.

NOTE: Due to our continuing product improvement, Roman Fountains reserves the right to change the specifications without notice.

DESIGN/APPLICATION DATA: RAN-Series foam/aerator nozzles mix air and water to produce a pattern that appears to be thick and extremely high volume. Water level independent.
