# RNS-SERIES, VALVED NOZZLE STAND AND RISER ASSEMBLY

STAND SHOWN WITH RBN-SERIES BUBBLER NOZZLE (NOT INCLUDED)

3D IMAGE

**SPECIFICATION DATA:** RNS-Series, Nozzle Stand and Riser Assembly consisting of copper and brass construction with support base with clearance holes for stainless steel anchors (By Installer), nozzle riser, flow by-pass valve; flexible hose and stainless steel clamps for pump connection.

**DESIGN/APPLICATION DATA:** The nozzle stand/riser assembly provides a convenient means of connecting an RHSP-Series submersible pump to a single vertically mounted spray nozzle and includes a 'bypass' valve for spray height adjustment. (state intended nozzle model number and fountain pool operating water depth, when ordering)

**NOTE:** Due to continuing product improvement program, Roman Fountains reserves the right to change the specifications without notice.

MODEL NUMBER	NOZZLE CONNECTION	MAIN PUMP & BYPASS CONN.	STANDARD WATER DEPTH
RNS-075-CB	3/4"	1 1/2"	16"
RNS-100-CB	1"	1 1/2"	16"
RNS-125-CB	1 1/4"	1 1/2"	16"
RNS-150-CB	1 1/2"	1 1/2"	18"
RNS-200-CB	2"	1 1/2"	18"
